

# MAPS

## Advice for reading maps:

- Read the title.
- Try to understand - who / what is the map about?
- Look for the time - is it about one year or a period of time?
- Look for the place – what is the map showing us, e.g. a town, countryside, factories, a beach, proposed roads etc.
- Look for key features – For maps showing different time periods: What has changed? Can you see any increases or decreases?
